

BARN PACKAGE COMPONENTS

services included

THE FOLLOWING design-build services are included with the YBH Barn Package for the client's convenience:

- Development of Schematic and Progress Plan Sets for the barn layout
- Engineering Review of the Yankee Barn Package
- Construction Plans for the Yankee Barn Package, plus a Foundation Plan
- Yankee Barn Construction Supervisor works on-site with General Contractor to erect YBH Shell Package

THE CLIENT'S BUILDER is to provide labor to erect the Yankee Barn Package. The client's builder also provides the foundation, finished roofing material, and any interior finishes such as horse stalls and tack rooms.

THE PRICE of each Barn Package depends on design criteria such as the size of the barn, geometry of the timber frame, the number of windows, siding type, etc. Schedule an appointment with a Design Manager to discuss various design options for your barn.
